<a href="/wiki/Title_(EP)" title="Title (EP)">Title</a> is the debut <a href="/wiki/Extended_play" title="Extended play">extended play</a> (EP) by American singer-songwriter <a href="/wiki/Meghan_Trainor" title="Meghan Trainor">Meghan Trainor</a> (pictured). Trainor wrote all of its songs with its producer, <a href="/wiki/Kevin_Kadish" title="Kevin Kadish">Kevin Kadish</a>. The two conceived the EP shortly after Trainor signed with <a href="/wiki/Epic_Records" title="Epic Records">Epic Records</a> in 2014. The label released it on September 9, 2014. Inspired by <a href="/wiki/Doo-wop" title="Doo-wop">doo-wop</a> from the <a href="/wiki/1950s_in_music" title="1950s in music">1950s</a>, Title comprises songs that lie between <a href="/wiki/Contemporary_R%26B" title="Contemporary R&B">modern R&B</a> and melodic <a href="/wiki/Pop_music" title="Pop music">pop</a>. The EP has a lyrical theme of commitment and staying true to oneself, which Trainor hoped would <a href="/wiki/Women%27s_empowerment" title="Women's empowerment">empower women</a>. It includes Trainor's debut <a href="/wiki/Single_(music)" title="Single (music)">single</a>, "<a href="/wiki/All_About_That_Bass" title="All About That Bass">All About That Bass</a>", which reached number one in 58 countries with worldwide sales of 11 million units. Title garnered mixed reviews from critics, who thought its tracks had potential for commercial success, but considered the lyrics too repetitive and questioned Trainor's musicality. The EP debuted at number 15 on the <a href="/wiki/Billboard_200" title="Billboard 200">Billboard 200</a>. Trainor promoted Title by performing its tracks on television shows and her concert tours. The journal reports results achieved in addition to proposals for new ways of looking at AI problems, both of which must include demonstrations of value and effectiveness. \u003c/p\u003e\u003cp\u003e Papers describing applications of AI are also welcome, but the focus should be on how new and novel AI methods advance performance in application areas, rather than a presentation of yet another application of conventional AI methods. Papers on applications should describe a principled solution, emphasize its novelty, and present an indepth evaluation of the AI techniques being exploited.\u003c/p\u003e\u003cp\u003e Apart from regular papers, the journal also accepts Research Notes, Research Field Reviews, Position Papers, and Book Reviews (see details below). The journal will also consider summary papers that describe challenges and competitions from various areas of AI. Such papers should motivate and describe the competition design as well as report and interpret competition results, with an emphasis on insights that are of value beyond the competition (series) itself. \u003c/p\u003e\u003cp\u003e From time to time, there are special issues devoted to a particular topic. The question of whether a paper is mature, complete and novel is ultimately determined by reviewers and editor

s on a case-bycase basis. Generally, a paper should include a convincing motivational discussion, articulate the relevance of the research to Artificial Intelligence, clarify what is new and different, anticipate the scientific impact of the work, include all relevant proofs and/or experimental data, and provide a thorough discussion of connections with the existing literature. A prerequisite for the novelty of a paper is that the results it describes have not been previously published by other authors and have not been previously published by the same authors in any archival journal. In particular, a previous conference publication by the same authors does not disqualify a submission on the grounds of novelty. However, it is rarely the case that conference papers satisfy the completeness criterion without further elaboration. Indeed, even prize-winning papers from major conferences often undergo major revision following referee comments, before being accepted to AIJ. \u003c/p\u003e\u003cp\u003e \u003ci \u003eAIJ\u003c/i\u003e caters to a broad readership. Papers that are heavily mathematical in content are welcome but should include a less technical high-level motivation and introduction that is accessible to a wide audience and explanatory commentary throughout the paper. Papers that are only purely mathematical in nature, without demonstrated applicability to artificial intelligence problems may be returned. A discussion of the work's implications on the production of artificial intelligent systems is normally expected. \u003c/p\u003e\u003cp\u003e There is no restriction on the length of submitted manuscripts. However, authors should note that publication of lengthy papers, typically greater than forty pages, is often significantly delayed, as the length of the paper acts as a disincentive to the reviewer to undertake the review process. Unedited theses are acceptable only in exceptional circumstances. Editing a thesis into a journal article is the author's responsibility, not the reviewers'. \u003c/p\u003e\u003cp\u003e \u003cb\u003eResearch Notes \u003c/b\u003e\u003c/p\u003e \u003cp\u003e The Research Notes section of the Journal of Artificial Intelligence will provide a forum for short communications that cannot fit within the other paper categories. The maximum length should not exceed 4500 words (typically a paper with 5 to 14 pages). Some examples of suitable Research Notes include, but are not limited to the following: crisp and highly focused technical research aimed at other specialists; a detailed exposition of a relevant theorem or an experimental result; an erratum note that addresses and revises earlier results appearing in the journal; an extension or addendum to an earlier published paper that presents additional experimental or theoretical results. \u003c/p\u003e\u003cp\u003e \u003cb\u003eReviews\u003c/b\u003e \u003c/p\u003e\u003cp\u003e The AIJ invests significant effort in assessing and publishing scholarly papers that provide broad and principled reviews of important existing and emerging research areas, reviews of topical and timely books related to AI, and substantial, but perhaps controversial position papers (so-called \"Turing Tape\" papers) that articulate scientific or social issues of interest in the AI research community. \u003c/p\u003e\u003cp\u003e \u003cb\u003eResearch Field Reviews:\u003c/b\u003e AIJ expects broad coverage of an established or emerging research area, and the articulation of a comprehensive framework that demonstrates the role of existing results, and synthesizes a position on the potential value and possible new research directions. A list of papers in an area, coupled with a summary of their contributions is not sufficient. Overall, a field review article must provide a scholarly overview that facilitates deeper understanding of a research area. The selection of work covered in a field article should be based on clearly stated, rational criteria that are acceptable to the respective research community within AI; it must be free from personal or idiosyncratic bias. \u003c/p\u003e\u003cp\u003e Research Field Reviews are by invitation only, where authors can then submit a 2-page proposal of a Research Field Review for confirmation by the special editors. The 2-page proposal should include a convincing motivational discussion, articulate the relevance of the research to artificial intelligence, clarify what is new and different from other surveys available in the literature, anticipate the scientific impact of the proposed work, and provide evidence that authors are authoritative researchers in the area of the proposed Research Field R

eview. Upon confirmation of the 2-page proposal, the full Invited Researc h Field Reviews can then be submitted and then undergoes the same review process as regular papers. \u003c/p\u003e\u003cp\u003e \u003cb\u003eBook Reviews: \u003c/b\u003eWe seek reviewers for books received, and suggesti ons for books to be reviewed. In the case of the former, the review edito rs solicit reviews from researchers assessed to be expert in the field of the book. In the case of the latter, the review editors can either asses s the relevance of a particular suggestion, or even arrange for the refer eeing of a submitted draft review. \u003c/p\u003e\u003cp\u003e \u003cb\u0 03ePosition Papers\u003c/b\u003e: The last review category, named in hono ur of Alan Turing as a \"Turing Tapes\" section of AIJ, seeks clearly wri tten and scholarly papers on potentially controversial topics, whose auth ors present professional and mature positions on all variety of methodolo gical, scientific, and social aspects of AI. Turing Tape papers typicall y provide more personal perspectives on important issues, with the intent to catalyze scholarly discussion. \u003c/p\u003e\u003cp\u003e Turing Tape papers are by invitation only, where authors can then submit a 2-page pro posal of a Turing Tape paper for confirmation by the special editors. The 2-page proposal should include a convincing motivational discussion, arti culate the relevance to artificial intelligence, clarify the originality of the position, and provide evidence that authors are authoritative res earchers in the area on which they are expressing the position. Upon conf irmation of the 2-page proposal, the full Turing Tape paper can then be s ubmitted and then undergoes the same review process as regular papers. \u 003c/p\u003e\u003cp\u003e \u003cb\u003eCompetition Papers \u003c/b\u003e \u003c/p\u003e\u003cp\u003eCompetitions between AI systems are now well e stablished (e.g. in speech and language, planning, auctions, games, to na me a few). The scientific contributions associated with the systems enter ed in these competitions are routinely submitted as research papers to co nferences and journals. However, it has been more difficult to find suita ble venues for papers summarizing the objectives, results, and major inno vations of a competition. For this purpose, AIJ has established the categ ory of competition summary papers. \u003c/p\u003e\u003cp\u003e Competitio n Paper submissions should describe the competition, its criteria, why it is interesting to the AI research community, the results (including how t hey compare to previous rounds, if appropriate), in addition to giving a summary of the main technical contributions to the field manifested in s ystems participating in the competition. Papers may be supplemented by on line appendices giving details of participants, problem statements, test scores, and even competition-related software. \u003c/p\u003e\u003cp\u00 3e Although Competition Papers serve as an archival record of a competiti on, it is critical that they make clear why the competition's problems ar e relevant to continued progress in the area, what progress has been made since the previous competition, if applicable, and what were the most sig nificant technical advances reflected in the competition results. The exp osition should be accessible to a broad AI audience.\u003c/p\u003e","desc ription":"The journal of Artificial Intelligence (AIJ) welcomes papers o n broad aspects of AI that constitute advances in the overall field inclu ding, but not limited …","coverUrl":"https://www.elsevier.com/__data/cove r_img/505601.gif","subtitle1":"An International Journal","title":"Artific ial Intelligence"},"callToActions":{"submit_your_paper_url":"https://www. editorialmanager.com/artint/default.aspx","view_articles_url":"https://ww w.sciencedirect.com/science/journal/00043702"},"footerLinks":{"sections": [{"title":"Readers","url":null,"urls":[{"url":"https://www.sciencedirect. com/science/journal/00043702","title":"View Articles"},{"url":"https://ww w.sciencedirect.com/user/alerts","title":"Volume/Issue Alert"},{"url":"ht tps://www.sciencedirect.com/user/register?utm_campaign=sd_recommender_ELS JLS\u0026utm_channel=elseco\u0026dgcid=sd_recommender_ELSJLS","title":"Pe rsonalized Recommendations"}]},{"title":"Authors","url":"http://www.elsev ier.com/authors/home","urls":[{"url":"https://www.editorialmanager.com/ar tint/default.aspx","title":"Submit your Paper"},{"url":"https://www.edito rialmanager.com/artint/default.aspx","title":"Check Submitted Paper"},{"u rl":"https://researcheracademy.elsevier.com","title":"Researcher Academ y"},{"url":"https://www.elsevier.com/about/policies/copyright/permission
